9<sup>th</sup> August 2018

Dear All

## GENERAL AND SCRUTINEERING & OFF ROAD COMMITTEE MEETINGS

Please find enclosed with this letter copies of the ALRC EGM and S&ORC meetings minutes held on the 7<sup>th</sup> July 2018 and the agendas for the next meetings to be held on the 17<sup>th</sup> November 2018 at the The British Motor Museum, Banbury Road, Gaydon, Warks, CV35 0BJ starting at 10.00am and 13.00.

## ADDITION TO THE ALRC SUPPLEMENTARY COMPETITION REGULATIONS

The ALRC Council at their meeting held on the 9<sup>th</sup> June 2018 agreed the following rule changes for implementation on the 1<sup>st</sup> January 2019.

### a. Part 1 General Vehicle Regulations

#### Section A - General

#### A.2 Source

Rover Company to 2001 – This was to allow car vehicles prior to that date.

Land Rover by whoever owned.

Vehicle specifications **are** limited to European countries only.

**Engines may be transplanted from vehicles over 10 years old that are on the ALRC Permitted Engine List. All other engines and any hybrid / electric propulsion systems must stay in the vehicle model it was manufactured in.**

**Vehicle Classes may need to be adapted to suit adoption of new engines. The engine list will define which class.**

**Maximum capacity allowable for each family of engine is that when fitted to a Land Rover product.**

ENGINE – Fuel Type & Capacity			COMP SAFARI CLASS
BMW V8	PETROL	4.4litre	9
JLR V8	PETROL	3.2 – 5litre	9
JLR V8	DIESEL	3.6 – 4.4litre	9
JLR V6	DIESEL	2.7 – 3litre	9
4 CYLINDER PUMA	DIESEL	2.2 & 2.4litre	8
6 CYLINDER BMW	DIESEL	2.5 & 3litre	8
BMW Td4	DIESEL	2 & 2.2litre	8

The process for how an engine gets on the list has been agreed to be the following.

At any meeting first the engine is announced with details to support the inclusion on the list. This then appears in the minutes of that meeting and at the following 2nd meeting any further comments can be discussed and a vote taken at the 3rd meeting to confirm acceptance or not.

This would be a rolling program completed within a year for each engine but the list could effectively be updated after every meeting should the need arise, depending on when an engine has been proposed – initially this could be done at any S&ORC meeting.

**b. Part 2 - Event Specific Vehicle Regulations**  
Section E – Road Taxed Vehicle (RTV)  
Tyres & Wheels

**E.2.5. In modified classes wheel spacers are permitted up to current MSA Yearbook Regulation P.56.6**

These minutes are sent direct to the ALRC Council, all club secretaries and delegates who attend the meetings, the Scrutineering & Off Road Committee and Log Book Scrutineers but I would be grateful if you could distribute this information to all members of your clubs.

If you have any topics that you would like to raise at the next meetings please let me have them so they can be added to the agenda. Both meetings are open to any club members that wish to attend and any input is welcomed to aid the running of the ALRC for the benefit of its member clubs.

Yours sincerely

Simone Birch  
Secretary  
For and on behalf of The Association of Land Rover Clubs Ltd.  
cc. All member Clubs, ALRC Council, S&ORC, Log Book Scrutineers, Delegates.
